EXPERIENCE

IT Support & Software Engineer

PT Khatulistiwa Nusantara Indonesia ↗

09/2024 - Present

INDONESIA WORKER ACADEMY (IWA)

- Developing and maintaining a web-based e-learning platform, including landing pages, class scheduling, and learning modules, as well as performing bug fixes and system performance optimization.

KIERA (ERP)

- Developing an ERP system that includes Procurement, CRM, and Order Management modules, encompassing vendor data management, purchase requests, customer management, and transaction processing. Performing bug fixes, data validation, and system performance optimization to meet business needs.

SAPA (SALES PARTNERSHIP) TELKOM INDONESIA

- Developing a Sales Partnership reconciliation system. Manage and process transaction and payment data (B2B & B2C) to support sales partnership operations. Perform data reconciliation between systems and payments to ensure accuracy and minimize data discrepancies. Handle system and data-related troubleshooting reported by users to maintain operational smoothness. Support monthly reporting processes and the validation of sales and fee calculations, and collaborate with internal teams on system improvements and database stability.

IT Support And Helpdesk

PT Khatulistiwa Nusantara Indonesia ↗

02/2024 - 09/2024

Web partner indihome (WPI) Telkom indonesia

- Handled user support, application troubleshooting, and incident escalation in a shift-based operational environment. Assisted with operational data validation, reconciliation processes, and issue resolution while collaborating with technical teams to maintain application stability. Recognized for strong troubleshooting skills.
